EDUCATION

Presbyterian Boys' Secondary School — Accra, Ghana
General Science (High School Diploma) — Feb 2023 - 2025

HONORS & ACHIEVEMENTS

- Highest Distinction Award, 2025 Ghana STEM Olympiad, National, 12 [LINK]
- Gold Award, Kangaroo Mathematics Competition, 2025, Ghana Olympiad Academy, National, 12 [LINK]
- Winner, 2025 Energy Commission Senior High Schools Renewable Energy Challenge (1st in School's History), National, Grade 12 [LINK]
- Honorable Mention, 2025 Slingshot Challenge: National Geographic Society & the Paul G. Allen Family Foundation, International, Grade 12 [LINK]
- Best Chemistry Student, PRESEC Boys' School, Grade 10 [LINK]
- Pre-Finalist Round, International Youth Math Challenge 2025 (IYMC), International, 12
- Participant, African Leadership Academy Accelerator Program, International, Grade 11 [LINK]
- Selected for the GhanaCodes Program, 1 of 20 people from 2,000 applicants, with a full scholarship [LINK]
- 2026 Summit STEM Fellow, Summit STEM Fellowship [LINK]
- 4th place, 1 Million Birds Challenge, Bird2Branch [LINK]
- Participant, 2026 Vanda International Junior Science Olympiad [LINK]
- Certificate of Merit, Researcher in the MISE Club, 2025 [LINK]
- Certificate of Honour, Executive of the PRESEC Science and Mathematics Club, 2024/2025 [LINK]
- Competed in the Otumfuo Osei Tutu II National Spelling Bee Finals, May 2021 [LINK]

WORK EXPERIENCES

Golden Jubilee Clinic — Mar 2023 – April 2024
Student Intern

- Supported frontline cancer screening by assisting with vital signs and clinical intake for 20-30 patients weekly, managing longitudinal records for over 300 patients, and improving care coordination to reduce wait times by 10-15%.
- Designed and delivered 10 cancer-prevention education sessions reaching 175 patients/week, focusing on nutrition, lifestyle risk factors, and stress physiology to improve health literacy, patient engagement, and preventive care outcomes.

LEADERSHIP ACTIVITIES

PRESEC STEM Team—Biomedical Engineering & Digital Health Initiative — February 2023 - September 2025
Hardware Lead and Vice President LINK

- Part of an 8-member biomedical team that designed and deployed HealthPort, a solar-powered, AI-enabled healthcare kiosk built to accelerate patient-physician appointment scheduling for healthcare in underserved rural communities, addressing gaps in late diagnosis and limited access to healthcare services, integrating multi-parameter vital monitoring, AI-based risk stratification, secure digital records, and remote clinician handoff for scalable, off-grid deployment.
- Drove national impact by winning the Energy Commission Senior High School Renewable Energy Challenge (top project among 400+ teams), securing $25,000 in competition funding, and earning national media coverage (The Ghanaian Times) for advancing sustainable, technology-driven healthcare access across rural areas, CHPS compounds, and emergency settings.

Plasticycle Club - Student-Led Recycling Club · Ghana Youth Environmental Movement February 2023 - September 2025

Vice President and Campaign Manager

- Worked to address plastic-derived carcinogens, educating students on how open burning, improper disposal, and microplastic exposure increase cancer risk, and organizing an industrial site visit to Safisana Ghana Limited to study waste management practices that reduce carcinogenic emissions.
- Led a school-wide plastic reduction campaign, achieving a 40% decrease in on-campus plastic waste, converting recycled materials into $1,000 in program funding, reinvesting proceeds to deploy 30 recycling bins, and earning Honorable Mention among 5,700 global participants in the International Slingshot Challenge for advancing community-level cancer risk reduction.

EXTRACURRICULAR & PROJECTS

Research Intern, ThinkNeuro, LLC – Neuroimaging Techniques & Analysis June 2026 - August 2026

- Built fluency in R programming, data analysis, literature review, and scientific visualization through independent coding and guided research.
- Collaborated with a 10-member research team to interpret citation networks, synthesize findings, and strengthen scientific research communication.
- Analyzed neuroimaging publication and citation data using R/RStudio, conducting bibliometric research to identify trends, influential studies, and emerging techniques in the field.
- Developed R-based visualizations and bibliometric maps to model research patterns across neuroimaging literature to develop a research abstract.

Student, Code in Place, Stanford University. May 2026 - Date

- Completed Stanford's Code in Place introductory programming course, learning problem-solving through Karel, Python fundamentals, functions, dictionaries, graphics, and core Python libraries.
- Built a final capstone project applying Python programming concepts to a self-designed problem.
- Continue developing programming skills through CS106A, with further study in Python, problem-solving, and computational thinking.

PRESEC Debate Club, Accra, Ghana. May 2023 – 2025

President & Writer

- Wrote 13 debates advocating for nationwide health policy reforms, influencing wellness initiatives for over 5,000 youth
- Collaborated with 5 NGOs to deliver presentations on neurodegenerative diseases at the University of Health and Allied Sciences.

SKILLS & INTERESTS

- Computer languages and tools: Python (Flask, Streamlit), R, Arduino, React and TypeScript.
- Interests: Enjoys playing the eFootball Mobile Game (ranked top 1000 among millions of players globally), Table Tennis, Research, Engineering and Technology, Photography, and Volunteering.
